CALL FOR ENTRIES / OPEN SUBMISSION

WE ARE LAUNCHING THE FIRST ISSUE OF VOW MAGAZINE AND WE WANT YOU IN IT!

VOW magazine is a thematic publication with a particular subject in every issue - which is then understood individually by different participants from all creative areas. A common result (and experience) which exceeds the possibilities of each individual originates from this process.

you are
invited 

We are looking forward to your ideas and contributions on the subject:

THIS MUST BE THE PLACE

Sometimes you simply need to create a bubble that protects you from the outside world - the scientists from the University of VOW describe this phenomenon as a strategy of virtually creating an island for your own. What is your personal Island all about? Can we see some pictures of it, or is it invisible, then please find some words for us to imagine.

In which form you want to contribute is up to you, you are free to translate/realize the subject according to your imagination (as long as the contribution is printable, think photography, illustration, words, lyrics, three-dimensional documentary...)

Please note that selection and layout of the contribution is chosen by the editors. For magazine release we are planning an exhibition with all of your work.

LET'S MAKE A VOW TOGETHER!

Please send your contribution latest by the 1st of may as low-res jpeg to:
mail@vow-magazine.com
